Description

For Wilmington International Airport (ILM) jobs research around Wilmington, NC, USA, Airport Facilities Technician duties show how a airport facility maintenance team handles everyday services. On a normal day, this means inspecting terminal utility equipment and recording building repair and safety checks while keeping records easy to follow. People with experience in facilities maintenance and inspection logs can apply those strengths to this career area.

Responsibilities

- Inspect terminal utility equipment.
- Record building repair and safety checks.
- Follow local safety and access rules while reporting delays or facilities issues.
- Share work updates and close out records when each task is complete.

Qualifications

- Practical familiarity with facilities maintenance and inspection logs.
- Ability to organize information and communicate clearly with colleagues or service users.
- Attention to accuracy, deadlines, and established operating procedures.

Experience

A background in facilities maintenance, academic projects, or related service work provides useful preparation for airport facilities technician responsibilities.

Skills

facilities maintenance, inspection logs, troubleshooting, communication, organization, accuracy
