California Conservation Corps Jobs — Conservation Crew Member — Sacramento, CA, USA

Description

Conservation Crew Member work in **Sacramento, CA, USA** involves the kind of fieldwork planning, environmental records, and public service often found in conservation & environmental services. The work calls for supporting habitat restoration as well as assisting field conservation projects, often within a clear department workflow. Comfort with field safety and habitat restoration helps with deadlines, coordination, and data quality.

Responsibilities

- Support habitat restoration.
- Assist field conservation projects.
- Follow field or facility safety guidance and keep activity logs current.
- Share site observations with supervisors and help coordinate follow-up work.

Qualifications

- Awareness of outdoor work, visitor services, or conservation practices.
- Reliability, teamwork, and accurate recording of field activities.
- Practical familiarity with field safety and habitat restoration.

Experience

Work, study, or volunteer projects involving field safety can help build relevant experience.

Skills

Field safety, habitat restoration, teamwork, Conservation Crew Member, Field records, safety awareness, public service
