Description

The National Institutes of Health (NIH) invites graduate students to apply for our Summer Internship Program in 2026. This program provides an exceptional opportunity for aspiring professionals to engage in cutting-edge biomedical research and contribute to the advancement of scientific knowledge.

Responsibilities

- Work on independent or collaborative research projects under the guidance of experienced NIH researchers.
- Participate in laboratory experiments, data analysis, and interpretation of results.
- Attend seminars, workshops, and networking events to enhance scientific knowledge.
- Contribute to research publications and presentations.
- Engage in discussions and share insights with fellow interns and researchers.
- Assist with administrative tasks related to ongoing research projects.

Qualifications

- Currently enrolled in a graduate program in a relevant field (e.g., Biology, Chemistry, Neuroscience, Public Health).
- Strong academic record.
- Excellent written and verbal communication skills.
- Detail-oriented with strong organizational abilities.
- Ability to work independently and collaboratively in a research environment.
- Passion for biomedical research and a commitment to scientific excellence.

Experience

- Previous research experience, especially in a laboratory setting, is preferred but not mandatory.
- Familiarity with scientific methodologies and data analysis techniques is advantageous.

Skills

- Proficiency in scientific research methods and techniques.
- Analytical thinking and problem-solving skills.
- Adaptability and a willingness to learn new research methodologies.
- Excellent interpersonal and teamwork skills.
- Strong time management and organizational abilities.

Job Benefits

- Gain hands-on experience in cutting-edge biomedical research.
- Networking opportunities with leading professionals in the scientific

community.

- Exposure to diverse research areas and methodologies.
- Mentorship and guidance from experienced NIH researchers.
- Potential for authorship on research publications.
- Competitive stipend for the duration of the internship.

How To Apply

Interested candidates should submit a curriculum vitae (CV), a statement of interest, and two letters of recommendation. Please use “NIH Summer Internship 2026 Application” as the subject line. Shortlisted candidates will be contacted for interviews.
