Description

For Hartsfield-Jackson Atlanta International Airport jobs research around Atlanta, GA, USA, Baggage Systems Technician duties show how a airport baggage systems team handles everyday services. Day-to-day responsibilities range from inspecting conveyor and baggage equipment to logging breakdowns and preventive maintenance, depending on team priorities. People with experience in baggage handling and mechanical troubleshooting can apply those strengths to this career area.

Responsibilities

- Inspect conveyor and baggage equipment.
- Log breakdowns and preventive maintenance.
- Follow local safety and access rules while reporting delays or facilities issues.
- Share work updates and close out records when each task is complete.

Qualifications

- Practical familiarity with baggage handling and mechanical troubleshooting.
- Ability to organize information and communicate clearly with colleagues or service users.
- Attention to accuracy, deadlines, and established operating procedures.

Experience

A background in baggage handling, academic projects, or related service work provides useful preparation for baggage systems technician responsibilities.

Skills

baggage handling, mechanical troubleshooting, safety, communication, organization, accuracy
