Description

Work in aviation security often involves responsibilities associated with a Transportation Security Officer, an option for anyone researching Transportation Security Administration (TSA) in Miami, FL, USA. On a normal day, this means screening passengers and carry-on items and documenting security screening exceptions while keeping records easy to follow. People with experience in security screening and public safety can apply those strengths to this career area.

Responsibilities

- Screen passengers and carry-on items.
- Document security screening exceptions.
- Keep operational records current and flag matters requiring safety review.
- Share work updates and close out records when each task is complete.

Qualifications

- Practical familiarity with security screening and public safety.
- Ability to organize information and communicate clearly with colleagues or service users.
- Attention to accuracy, deadlines, and established operating procedures.

Experience

A background in security screening, academic projects, or related service work provides useful preparation for transportation security officer responsibilities.

Skills

security screening, public safety, attention to detail, communication, organization, accuracy
